

DNRB
SOLUTIONS

Structured cabling services

Hertfordshire based · Working nationwide · Every link tested and certified

DATA CABLING

Cat6 and Cat6A copper infrastructure. First fix through to patch panel termination.

- Office and commercial fit-outs
- Education and student accommodation
- Containment and cable management

FIBRE OPTIC

Singlemode and multimode backbones, splicing and termination.

- Backbone and inter-building links
- Data centre connectivity
- Fusion splicing and OTDR testing

AV INSTALLATION

Cabling infrastructure to support AV systems, coordinated with the M&E programme.

- Boardrooms and meeting spaces
- Classrooms and lecture theatres
- Auditorium and event spaces

AUDITING & SURVEYS

Pre-installation surveys and audits of existing infrastructure.

- Route and containment surveys
- Existing system audits
- Clear reporting for design and pricing

TESTING & CERTIFICATION

Fluke DSX permanent link and channel testing to recognised standards.

- TIA-568 and ISO 11801
- Full result sets issued
- Manufacturer warranty submissions

COMMISSIONING

Final sign-off and handover documentation.

- Labelling and as-built drawings
- O&M documentation packs
- System handover and sign-off

SECTORS

Commercial offices · Education & student accommodation · Healthcare · Residential & new build

✓ Directors on site

Same people from survey to handover.

✓ Certified, not just installed

Fluke DSX results issued in full.

✓ Priced off the real building

We survey before we quote.

Tell us about the site.

Send the location, rough scope and timescale — we will come back with a survey date or a budget figure.
